

COMPANY PROFILE

FOURUS
ENGINEERING SOLUTIONS
QUALITY BUILT ON INTEGRITY

**Your End-to-End Partner in
Precision Mechanical Components
& Manufacturing Solutions**

**Committed to excellence, compliance and
continuous improvement**

ABOUT FURUS ENGINEERING SOLUTIONS

Engineering Precision. Powering Progress.

For two decades, we've lived and breathed manufacturing. As a team, we've learned that true partnership means more than supplying parts—it means engineering reliability into every design, optimizing every link in the supply chain, and ensuring seamless compliance.

Our 20 years of hands-on experience is the foundation we build on for every client.

OUR SERVICES

PRECISION MANUFACTURING & GLOBAL SUPPLY CHAIN

Millimeter Precision. Industrial Scale.

Our state-of-the-art machining facilities deliver components with tolerances that meet the most demanding specifications & specialize in:

- ✦ CNC milling and turning
- ✦ Multi-axis machining of complex geometries
- ✦ High-volume production with consistent quality
- ✦ Material expertise: aerospace alloys, stainless steels, exotic metals
- ✦ Secondary operations: deburring, surface treatments, coating

Value Proposition: Reduce capital investment while accessing world-class manufacturing capabilities with full traceability.

OUR SERVICES

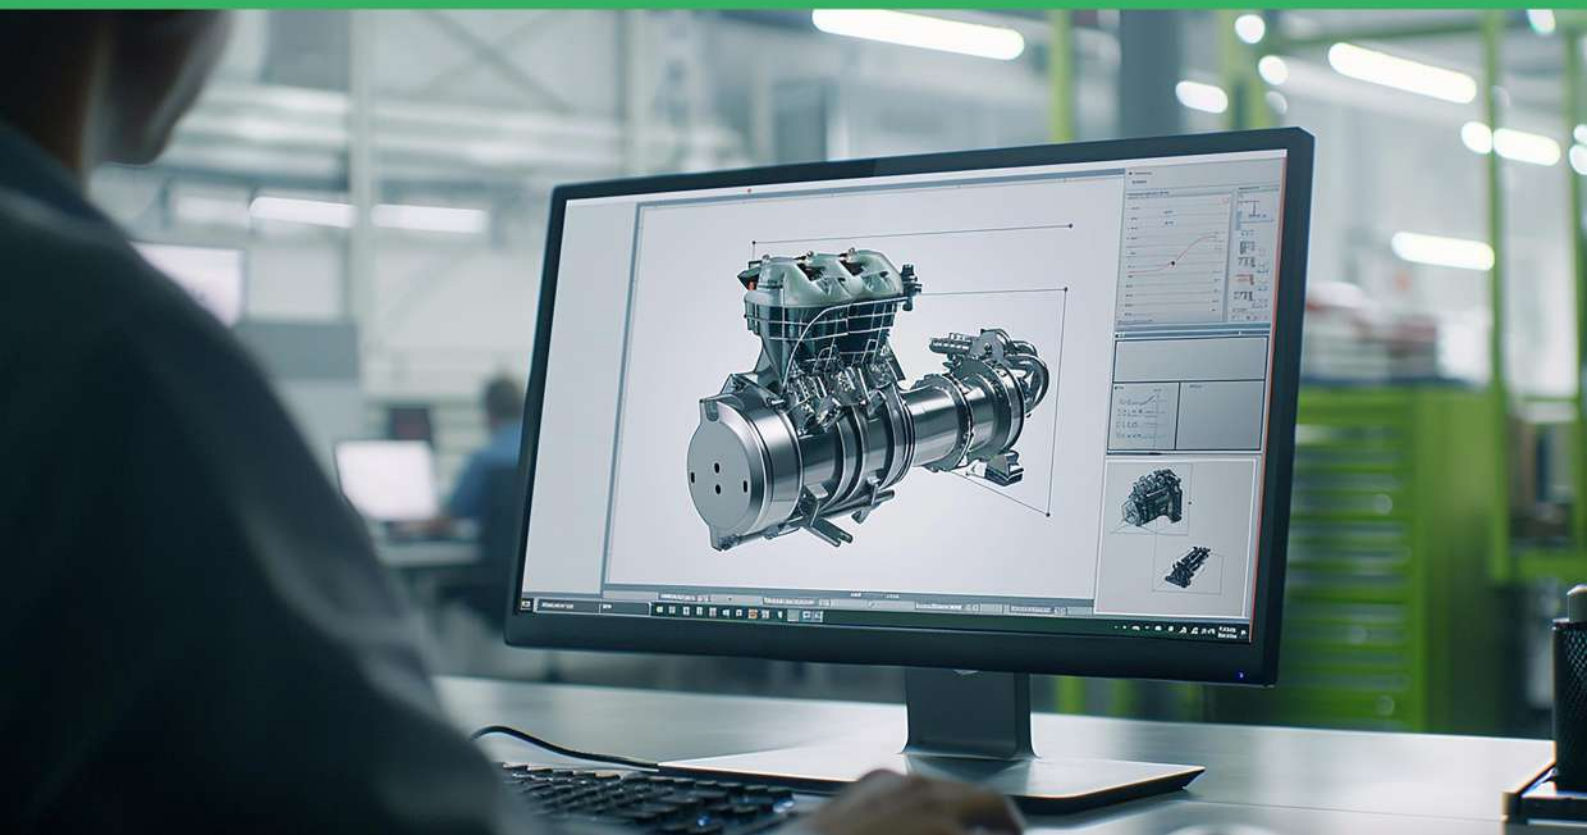

DESIGN & ENGINEERING SERVICES

Designed for Manufacture. Engineered for Performance.

Transform concepts into optimized, manufacturable components through our integrated design services:

- ✦ Design for Manufacture (DFM) analysis
- ✦ CAD/CAM modeling and simulation
- ✦ Prototype development and testing
- ✦ Tooling and fixture design
- ✦ Reverse engineering and modernization

Value Proposition: Accelerate time-to-market with designs that balance performance, manufacturability, and cost-efficiency.

OUR SERVICES

SUPPLY CHAIN & PROCUREMENT SOLUTIONS

Intelligent Supply Chains. Resilient Operations.

Navigate global markets with confidence using our comprehensive supply chain management:

- 🌀 Strategic sourcing of raw materials and components
- 🌀 Supplier qualification and development
- 🌀 Inventory management and vendor-managed inventory (VMI)
- 🌀 Logistics optimization and customs compliance
- 🌀 Risk mitigation and supply chain diversification

Value Proposition: Transform your supply chain from a cost center to a competitive advantage with our market intelligence and partner network.

OUR SERVICES

QUALITY COMPLIANCE & ASSURANCE

Beyond Compliance. Building Trust.

In regulated industries, quality is non-negotiable. Our rigorous systems ensure:

- ISO 9001, AS9100, IATF 16949, API compliant processes
- First Article Inspection Reports (FAIR)
- PPAP documentation and submission
- Statistical Process Control (SPC)
- Calibration management and gauge R&R studies
- Material certification and traceability

Value Proposition: Meet the strictest quality standards while streamlining your compliance documentation.

OUR SERVICES

HEAT TREATMENT & FABRICATION

Enhanced Properties. Extended Performance.

Achieve optimal material characteristics through our specialized services:

- 🌀 Annealing, hardening, tempering, and case hardening
- 🌀 Vacuum and atmosphere heat treating
- 🌀 Welding and fabrication of structural components
- 🌀 Sheet metal fabrication and assembly
- 🌀 Surface treatments and coatings

Value Proposition: : Add value to your components with metallurgical expertise that enhances durability and performance.

OUR SERVICES

TOOLING, GAUGES & FIXTURES SUPPLY

Precision Tools for Precision Results.

The right tools define manufacturing success. We provide:

- Custom jigs, fixtures, and workholding solutions
- Special gauge design and manufacturing
- Cutting tools and tool management systems
- Mold and die design and fabrication
- Maintenance, repair, and calibration services

Value Proposition: Optimize your production efficiency with purpose-designed tooling solutions.

CAPABILITIES OVERVIEW

We are a manufacturing liaison office, leveraging decades of industrial experience and a global network to connect clients with the optimal certified partners for their component production.

60 years of combined engineering experience

Global supply network across India, China, Middle East & Africa

WHY PARTNER WITH US?

Vertical Integration: Control over the entire process from material sourcing to final inspection

Technical Partnership: Engineers working alongside your team, not just order takers

Transparency: Real-time visibility into production status and supply chain

Scalability: From prototype to full production runs with consistent quality

Risk Management: Diversified supplier base and contingency planning

QUALITY CERTIFICATIONS

Our partners are certified with the below accreditations.
